

[Standard Document] EV424: The Global Integrity Protocol (SSOT v1.3)

Issued: 2026-02-06 21:44 KST

Scope(EN): Integrity-only. The Non-Negotiable Boundary MUST remain unchanged across all official materials.

KR(): () . 가 .

Non - Negotiable Boundary (가)

EV424 DOES: Byte-level Sameness · Non-custodial · Open Reproducibility(Independent Verification)

EV424 DOES NOT: Truth/Safety/Legality · Content Analysis · Custody/Hosting

Safe - Rail 2.0 ()

A. EN: We do not review what the data says. We only prove that it is still the same, and we offer that verification infrastructure by subscription.

KR(): (What) . 가 (Still Same) .

B. EN: EV424 does not judge. It only reproduces. We do not claim truth; we issue integrity receipts that any third party can re-run.

KR(): EV424 . ‘ ’ , 3 가 .

C. EN: A PASS on an EV424 receipt is not an approval of legality. It is a mathematical confirmation of byte-level sameness.

KR(): EV424 Receipt PASS ‘ ’ , ‘ ’ .

[Immutable Boundary Notice] (API/Receipt)

EN: This receipt attests byte-level sameness only. It does not judge truth, safety, or legality. The source is referenced, not mirrored.
