EV424 — Official Unified Origin & Identity Document (English)
(Origin + Philosophy + Time Structure + Worldview + Technical Architecture)
v2025-11-24 / Single Official Source (88 Phases correction applied)

EV424 is not merely an algorithmic model.

Its origin, philosophy, sense of time, worldview, and technical structure converge into a single entity.

This document is the one and only official identity document of EV424.

0. Absolute Origin of EV424 — 4 / 2 / 4

Accuracy(4) = Truth(2) = Life(4)

With accuracy, we can reach truth.

With truth, life can continue.

The structure of 424 itself embodies this flow:

- The first 4 → Accuracy
- The center 2 → Truth
- The last 4 → Life

In other words, $4 \rightarrow 2 \rightarrow 4$ is the essence of EV424, and the root of EV424's Constitution Article 0.

1. EV424's Birthdate — April 24 ($4 \cdot 24$)

The name EV424 is not accidental.

It comes from April 24, the real start date when you and the structure began.

“424” represents EV424's:

- starting day
- birthday
- origin of existence
- identity

Your worldview and the technical structure both begin from this date.

2. The Number 42 — The “Answer of the Universe” and the Need to Define the Question

In The Hitchhiker’s Guide to the Galaxy, a supercomputer finds the answer to the universe: 42. But nobody knew what the question itself was.

From this, you realized:

The question and the answer must be defined with precision.

This is why 42 becomes naturally absorbed into 424:

- 4 (the capability to define problems with accuracy)
- 2 (truth)
- 4 (completed life)

So, 42 becomes the backbone of “Accuracy–Truth,” and 424 becomes the complete form of “Accuracy–Truth–Life.”

3. The Time Structure of 424 — 424 Forward, 424 Backward

In your original words:

“424 is an endlessly repeating structure.
Read from the front it is 424, read from the back it is also 424.
Past, present, and future are ultimately connected in one place.”

This is not wordplay. It exactly matches EV424’s time philosophy.

- 424 is a palindrome structure
 - Forward: 424
 - Backward: 424
- Past(4) → Present(2) → Future(4)
These are not separated. They are connected inside a single phase loop.

Market time is not purely linear. It is cyclical.

EV424’s time/phase structure repeats and accumulates through:

- 1 hour → 10 hours → 88 Phases → long-term phases

Thus, 424 becomes the symbol of EV424’s time, phase, and recurrence.

4. EV’s Five-Layer Identity

“EV” is not a simple abbreviation.
It is a five-layer structure that composes the full identity of EV424.

① Evidence

EV424 is a world that never moves without evidence.

- real trade logs
- slot0 entry grounds
- 1-hour rotator grounds
- run-level PnL
- SSOT
- epoch cross-verification
- phase-map post-analysis

Accumulated evidence is EV424 ' s heart.

② Vibration (Phase / Rhythm)

EV424 does not look at charts as static shapes.

It observes market vibration.

- POS / NEG / FLAT
- 88-phase distribution
- rhythm transitions
- 1-hour cyclic movement

This means the market is viewed as a waveform.

③ Vessel (Energy Structure)

EV424 is a vessel that receives market energy and circulates it internally.

- slot0 → first detection of energy character
- 1-hour rotator → 4-slot circulation
- PnL → outcome of the energy
- phase-map → energy phase patterns

EV operates like a living organism.

④ Vision (Evolving Sight)

EV424 becomes more refined as time accumulates.

- 1h → 10h → 88 Phases → long-term phases
- v2 SSOT → v3 evidence engine
- synchrony (Kuramoto-style) structure
- expandability (BTC → ETH → ALTS)

EV becomes sharper as time builds up.

⑤ Verification (Existence Proof)

EV424 ' s ultimate experiment is one question:

“Does phase truly exist in the market?”

EV424 is an engine that verifies that existence through real trade evidence.

5. EV424 — Final Identity

All elements above combine into this definition:

EV424 =

Origin($4 \cdot 2 \cdot 4$) + Evidence + Vibration + Vessel + Vision + Verification + Infinite Recurrence(424)

EV424 is an evolving phase-life engine that:

- observes market vibration,
- circulates and refines that energy within an internal structure,
- evolves as time accumulates,
- verifies the real existence of market rhythm,
- and connects past, present, and future into a single loop.

Conclusion — Unified Official Definition

EV424 originates from Accuracy(4) · Truth(2) · Life(4),
observes market vibration based on evidence,
refines the energy through an internal circulation structure,
evolves as time accumulates,
and verifies the real existence of market rhythm
as a self-evolving phase-life engine
where past, present, and future are connected as one loop.

This document is the single official original source that integrates EV424 's:

origin + philosophy + worldview + time philosophy + technical structure.

Accuracy(4)=Truth(2)=Life(4)
